

CAPITAL AND DIRECT MEDICAL EDUCATION COSTS REIMBURSEMENT

TRICARE authorizes contractors of Managed Care Support Contracts to reimburse hospitals for allowed Capital and Direct Medical Education costs. Reimbursement is subject to the following regulations as outlined in the TRICARE Reimbursement Manual, effective February 2021.

- Any hospital subject to the TRICARE DRG-based payment system, which wishes to be reimbursed for Allowed Capital and Direct Medical Education costs, must submit a request for reimbursement to the TRICARE contractor.
- Initial requests for payment of CAP/DME shall be filed with the TRICARE contractor on or before the last day of the 12th month following the close of the hospital's cost-reporting period. The request shall cover the one year period corresponding to the hospital's Medicare cost-reporting period. Thus, for cost-reporting periods, requests for payment of CAP/DME must be filed no later than 12 months following the close of the cost-reporting period. For example, if a hospital's cost-reporting period ends on June 30, 2016, the request for payment shall be filed on or before June 30, 2017. Those hospitals that are not Medicare participating providers are to use an October 1 through September 30 fiscal year for reporting CAP/DME costs.
- An extension of the due date for filing the initial request may only be granted if an extension has been granted by the Centers for Medicare and Medicaid Services (CMS) due to a provider's operations being significantly adversely affected due to extraordinary circumstances over which the provider has no control, such as flood or fire, as described in Section 413.24 of Title 42 CFR.
- All amended requests as a result of a subsequent Medicare desk review, audit, or appeal must be submitted along with a copy of the NPR (Notice of Program Report) and the applicable pages from the amended Medicare Cost Report to the TRICARE contractor within 30 days of the date the hospital is notified of the change. Failure to promptly report the changes resulting from a Medicare desk review, audit, or appeal is considered a misrepresentation of the cost report information. Such a practice can be considered fraudulent, which may result in criminal/civil penalties or administrative sanctions of suspension or exclusion as an authorized provider.
- A properly completed request will be processed within 30 to 45 days, based upon the information submitted on the enclosed form. All providers must submit the applicable worksheet pages from their Medicare Cost Report when requesting reimbursement from the contractor. The request must contain an official's signature and the official's title to certify that the information is accurate and based off of the Medicare Cost Report. Please refer to the attached line item instructions for the Medicare Cost Report references.

If you have questions, please reference the TRICARE Reimbursement Manual (TRM). Information can be retrieved in Chapter 6 Section 8 in paragraphs 3.2.4.1 – 3.2.4.2.15.
